DIE ALONE - Single

Out from the gate, we have here the anthem like melodies of this Metalcore band. But before we get into the wonderful musical capabilities of the bands instrumentalists, we need to discuss their history. This band used to be known as Devil You know, a name under which they produced some heavier songs like 7 years alone. They have produced two albums not including this upcoming one, revival, and they are generally a great instrumentalist group with some quality screamo vocals.

That said, in this song, the vocalist had undistorted vocals, as a clean singer, he hit all the notes, however, it was, to be honest, sub par. Though the instrumentals were beautifully standard and more than capable of compensating.
